4. Admission interviews - conditions of admission to the PhD degree
5. Approval of dissertation topics and supervisors for academic degree. 2023-24

COURSE OF THE MEETING:

1. The committee meeting was opened by prof. The meeting was opened by Prof. Vančová and chaired by.
2. The Chair of the RŠP (and also of the specialty committee for the special education) presented the agenda of the meeting, which was approved by the RŠP.
3. The Commission discussed and approved the correction of the erroneous indication of the admission requirements for the M.Sc. degree ( full-time and part-time form) in the description of the SP in relation to the new system of the SP as follows:

SPECIAL PEDAGOGY Mgr. degree

The admission conditions are:

- ✓ completed bachelor studies in the study programme of special pedagogy
- ✓ graduates of the Faculty of Education of Charles University Bc. Graduates of special education studies can be admitted without admission interviews.

The order of success of applicants will be based on the weighted study average achieved in the Bachelor's degree.

Graduates of the Special Education (Bachelor's degree) programme from other faculties of education will take differential entrance examinations in the following subjects:

- written test in special education,
- a written test in subjects that will depend on the two specialisations chosen.

Graduates of Bc. studies in study programmes (preschool and elementary pedagogy, social pedagogy) can be admitted only on the basis of passing differential entrance examinations and other conditions announced by the university.

Applicants who choose the specialisation in pedagogy for the hearing impaired are required to take a practical examination aimed at assessing:

- the content and formality of spoken language,
- the prerequisites for mastering manual forms of communication.
- The practical examination will take place before an admissions board made up of experts in the field.

Rationale: In the description of the programme, we had stated that: 'Graduates of the B.Sc. Graduates of the study programmes (preschool inclusive pedagogy, social pedagogy, therapeutic pedagogy) can be admitted only on the basis of passing the differential entrance examination and other conditions announced by the university.'

At present, there is no longer a specialisation in pre-school inclusive pedagogy and the specialisation in therapeutic pedagogy belongs to the specialisation in speech therapy and therapeutic pedagogy according to the new system of specialisations.

4. The Commission discussed and approved the proposal for modification or correction of the admission requirements for Ph.D. degree ( full-time and external form) as follows:

Candidates for the Ph.D. degree programme in special education must have completed the 2nd cycle of higher education, preferably in the study programme in special education (or its older equivalents) or in the study programme in teaching for primary education.

5. The Committee discussed and approved the dissertation topics written by the approved supervisors, in agreement with the approval of the dissertation topics by the Doctoral Studies Committee as per the Annex.

MINUTES PREPARED BY: Prof. PaedDr. Alica Vančová, PhD.
